

# Kaylee's Task: Hashtag Research & Selection

**Project:** Hashtags for Change

**Phase:** Week 4 - Social Media Data Collection

**Duration:** 2-3 days

**Deadline:** November 4, 2025

## Task Objective

Develop a comprehensive, data-driven hashtag taxonomy aligned with ACLED conflict events to enable accurate correlation analysis between real-world crises and social media activity. Your hashtag selection will serve as the foundation for all social media data collection and subsequent analysis.

## Task Overview

You will create a curated list of **50-75 hashtags**, organized into categories that directly correspond to the patterns identified in our ACLED exploratory analysis. This list must be:

- **Evidence-based:** Grounded in actual ACLED data findings
- **Strategically diverse:** Cover multiple event types, regions, and themes
- **Validation-ready:** Verifiable through Google Trends
- **Actionable:** Ready for Kenneth and Sasha to use in data extraction

## Step-by-Step Instructions

### STEP 1: Review ACLED Analysis Results (Day 1)

#### Action Items:

1. Open the Jupyter Notebook file: [Data Project2.ipynb](#)
2. Review all 11 visualizations carefully

**Deliverable:** "ACLEDD Patterns Summary" with bullet points

## **STEP 2: Preliminary Hashtag Brainstorming (Day 1-2)**

### **Action Items:**

**Country-Specific Hashtags:** For each of the **Top 15 countries**, identify 2-4 hashtags:

- **Syria:** #SyriaCrisis, #SaveSyria, #SyriaWar, #StandWithSyria
- **Myanmar:** #MyanmarCoups, #WhatsHappeningInMyanmar, #MilkTeaAlliance, #SaveMyanmar

### **Your Task:**

- Research existing hashtags for each country using:
  - Instagram search (public posts)
  - TikTok search (public videos)
  - Twitter/X trends (via web interface)
  - News articles about each crisis
- Look for hashtags that:
  - Have sustained usage (not one-time viral moments)
  - Appear across multiple platforms
  - Are used in English (primary focus)
  - Relate to ACLED event types (protests, conflicts, human rights)

**Deliverable:** Spreadsheet column: "Country-Specific Hashtags" (20-30 hashtags)

**2C: Regional Awareness Hashtags**

Based on ACLED's top 5 regions, find hashtags representing regional solidarity:

**Examples:**

- #AfricaRising, #AfricanUnity
- #LatinAmericaVoices, #LatAmSolidarity
- #SouthAsiaProtests, #SouthAsiaCrisis

**Your Task:**

- Identify 2-3 hashtags per major region
- These should capture regional movements, not country-specific crises
